

Secure Decentralised Intelligent data Marketplace

The **main goal** of SEDIMARK is to design and prototype a secure decentralised and intelligent data and services marketplace that bridges remote data platforms and allows the efficient and privacy-preserving sharing of vast amounts of heterogeneous, high quality, certified data and services supporting the common EU data spaces.

The performance and functionalities of the decentralised SEDIMARK marketplace will be **validated in 4 use cases**:

Mobility Digital Twin

Urban bike mobility planning

Valorisation of energy consumption data

Valorisation of water-related data

Start date
1st October 2022

End date
30th September 2025

Total cost
€ 5.25 millions

EU contribution
€ 4.4 millions

This project is funded by the European Union under the Horizon Europe framework programme (grant number 101070074). It is also partly funded by UK Research and Innovation (UKRI) under the UK government's Horizon Europe funding guarantee (grant number 10043699).
